INVITATION FOR BID

Sealed bids for Cleaning of Wells 10 & 11 will be received by Department of Public Works, Town Hall Annex, 25 Center Street, Burlington, Massachusetts, 01803 until 10:00 AM, January 26, 2021 and will be publicly opened and read aloud at such time.

- Specifications and bid forms are available on the Town's website site at: <http://www.burlington.org> ,under the Businesses tab.
- Specifications and bid forms may be obtained at the Department of Public Works, Town Hall Annex, 25 Center Street, Burlington, Massachusetts, 01803 after January 11, 2021 after 9:00 AM for a fifty (\$50.00) dollar reproduction fee or on the Town's website at www.Burlington.org on DPW's page for projects out to bid.
- This project is bid according to MGL 30B.
- Town's Designated Representative and point of contact for questions is: Russ Makiej, RMakiej@burlington.org, 781-270-1648.
- Prevailing wage shall be paid per MGL 149 SECT. 26-27D

PROJECT DESCRIPTION

The work under this contract shall include all equipment, labor, material, supplies, etc. necessary to furnish the work described in this contract.

INSTRUCTIONS TO BIDDERS

Receipt and Opening of Bids

The Town of Burlington, Massachusetts, herein called the Owner, acting by and through its Department of Public Works, will receive sealed bids as specified in the invitation for Bids at which time bids will be publicly opened and read.

Any bid may be withdrawn prior to the above scheduled time for the opening of bids or authorized postponement thereof. Any bid received after the time and date specified will not be considered. The bidder agrees that this bid shall be good and may not be withdrawn for a period of thirty (30) days, Saturdays, Sundays, and legal holidays excluded, after opening the bids.

Location and Work to be Done

The Location of the Work to be done is described in the project description.

The Contractor shall furnish all labor, services, materials, equipment, plant, machinery, apparatus, appliances, tools, supplies, and all other things necessary to do all work required for the completion of each item of the Work and as herein specified.

The Work to be done and paid for under any item shall not be limited to the exact extent mentioned or described but shall include all incidental work necessary or customarily done for the completion of that item.

Preparation of Bid

Each bid must be submitted on the prescribed form. All blank spaces for bid prices must be filled in, in ink or typewritten, in both words and figures.

Each bid must be submitted in a sealed envelope bearing on the outside **the name of the bidder, his address, and endorsed with the name of the project as specified in Receipt and Opening of Bids.**

If forwarded by mail, **the sealed envelope containing the bid must be enclosed in another envelope addressed as specified in Receipt and Opening of Bids.**

The following sections need to be filled out and completed as part of the bid package;

- Form of General Bid
- Acknowledgement of Addenda, if any
- Bid Form
- Total Bid Price
- Contractor Reference
- Contractor Certification

Bid Opening Procedure

The following list of requirements shall apply to each filed bid. Bids not meeting all the requirements for timeliness and security will be rejected without opening; bids not meeting signature and addenda requirements will be rejected prior to checking of bid amounts.

Bids shall be filed at the place and before the time specified in Receipt and Opening of Bids.

Properly executed bid security shall be placed in a sealed envelope and shall be attached to the outside of the envelope containing the bid.

Bid signatures will be checked.

The total dollar amount of each bid will be read, and the three apparent lowest bids will be selected for further consideration. These three apparent low bids will be read aloud for the benefit of the other bidders and the bid opening procedure will be closed. All those present at the bid opening may arrange a time to examine all bids after the bid opening and after the reading of the three apparent low bids.

Ability and Experience of Bidder

No award will be made to any bidder who cannot satisfy the Owner that he has sufficient ability and experience in this class of work and sufficient capital and plant to enable him to complete the work successfully within the time named. The Owner's decision or judgment on these matters will be final, conclusive, and binding.

Bidder shall have a minimum of five (5) years' experience and have completed satisfactorily five (5) jobs within that time of similar size and scope.

All Subcontractors shall have a minimum of five (5) years' experience and have completed satisfactorily five (5) jobs within that time of similar size and scope.

The Contractor must submit with his bid proposal a list of five (5) jobs which he has successfully completed, giving the name and the address of these projects so they can be investigated prior to the award of the contract.

The Owner may make such investigations as he deems necessary, and the bidder shall furnish to the Owner, under oath if so required, all such information and data for this purpose as the Owner may request.

Condition of Work

Each bidder must familiarize himself fully with the conditions relating to the construction of the project and the employment of labor thereon. Failure to do so will not relieve a successful bidder of his obligation to furnish all material and labor necessary to carry out the provisions of his Contract. Insofar as possible the Contractor, in carrying out his work, must employ such methods or means as will not cause any interruption of or interference with the work of any other Contractor.

*Well Cleaning 10&11 21S-451-0041
January 26, 2021 10:00 AM*

Addenda and Interpretations

No interpretation of the bid documents will be made orally. Every request for such interpretation should be in writing addressed to the **Town's Designated Representative** listed in INSTRUCTION TO BIDDERS and to be given consideration must be received at least seven (7) days prior to the date fixed for the opening of bids. Any and all such interpretations and any supplemental instructions will be in the form of written addenda to the Contract Documents. Failure of any bidder to receive any such addendum or interpretation shall not relieve such bidder from any obligation under this bid as submitted. All addenda so issued shall become part of the Contract Documents.

Laws and Regulations

The bidder's attention is directed to the fact that all applicable State laws, municipal ordinances, and the rules and regulation of all authorities having jurisdiction over construction of the project shall apply to the Contract throughout, and they will be deemed to be included in the Contract the same as though herein written out in full.

Bid Security

Each bid must be accompanied by a BID BOND, CASH, or, CERTIFIED CHECK, payable to the Town, in the amount stated in INVITATION TO BID. Such checks will be returned to all except the three (3) lowest responsible and eligible bidders within five (5) days, Saturday, Sundays, and legal holidays excluded, after the opening of bids, and the remaining checks will be returned promptly after the Owner and the accepted bidder have executed the Contract, or if no notice of intent to award has been presented to the selected contractor within thirty (30) days, Saturdays, Sundays and holidays excluded, after the date of the opening of bids, upon demand of the bidder at any time thereafter.

The said amount is fixed and agreed upon by and between the Contractor and the Owner because of the impracticability and extreme difficulty of fixing and ascertaining the actual damages the Owner would in such event sustain, and said amount is agreed to be the amount of damages which the Owner would sustain and said amount shall be retained from time to time by the Owner from current periodical estimates.

Right to Reject Bid

The Owner reserves the right to waive any informality or reject any and all bids and alternate bids, should the Owner deem it to be in the public interest to do so.

The Owner also reserves the right to reject the bid of any bidder that the Owner considers to be unqualified based on the criteria set forth in Article 5 herein.

Time for Completion

The bidder must agree to commence work and to fully complete the project within the time limit stated in SPECIAL CONDITIONS.

Comparison of Bids

In the event that there is a discrepancy in FORM OF GENERAL BID between the lump sum or unit prices written in words and figures, the prices written in words will govern.

*Well Cleaning 10&11 21S-451-0041
January 26, 2021 10:00 AM*

Rule for Award of Contract

The Contract will be awarded to “the lowest responsible and responsive bidder” for the Total Price Bid pursuant to General Laws Chapter 30B as amended. Such a bidder shall possess the skill ability and integrity necessary for the faithful performance of the work, shall be able to furnish labor that can work in harmony with all other elements of labor employed, or to be employed, in the work, and shall otherwise comply with all applicable provisions of law. Bidder shall execute formal agreement within ten (10) days of the Notice of Award.

Statutes Regulating Competitive Bidding

Any bid that does not comply with the provisions of Massachusetts General Laws Chapter 30B, need not be accepted and the Owner may reject every such bid.

Wage Rates

Prevailing Wage Rates as determined by the Commissioner of Department of Labor and Industries under the provision of the Massachusetts General Laws, Chapter 149, Section 26 to 27G, as amended, apply to this project. It is the responsibility of the contractor, before bid opening to request if necessary, any additional information on Prevailing Wage Rates for those trades people who may be employed for the proposed work under this contract.

State schedules of Prevailing Wage Rates are included in the contract documents.

Specifications

N/A

Bid Items Not Guaranteed

The successful bidder is not guaranteed all items or the total bid price under this contract. Bidders must understand that like items will be bid under other contracts specifically packaged as one complete project. The successful bidder has no right to similar items bid under other projects. The Town Engineer will specify where and when this contract will be applied to undertake a particular improvement.

FORM OF GENERAL BID

Bid of _____ (hereinafter called "Bidder")*

(____) a corporation, organized and existing under the laws of the state of _____.

(____) a partnership

(____) a joint venture

(____) an individual doing business as _____

To the Town of Burlington, Massachusetts (hereinafter called "Owner").

Gentlemen:

The bidder, in compliance with your invitation for bids, having examined the Contract Documents and being familiar with all of the conditions surrounding the construction of the proposed project including the availability of materials and labor, hereby propose to furnish all labor, materials, and supplies, and to construct the project in accordance with the Contract Documents within the time set forth in the agreement, and at the prices stated below. These prices are to cover all expenses incurred in performing the work required under the Contract Documents, or which this proposal is a part.

*Insert corporation, partnership or individual as applicable.

*Well Cleaning 10&11 21S-451-0041
January 26, 2021 10:00 AM*

GENERAL INFORMATION

Well Cleaning Well #10

The Town of Burlington DPW is seeking pricing for the conventional cleaning of Well # 10 at 132 Lexington St., Burlington, MA. The well is a gravel packed well and measures 60' x 18". The pump capacity is approx. 1000 GPM and a drawdown of 21-22 gallons per foot.

Allowance

The town of Burlington is making allowances for parts that cannot be inspected, until the pump is removed and the wells inspected.

The allowances are spelled out below and can be added to the overall costs in the well cleaning portion of the contract.

The pricing is general allowing the Town to set aside monies for this work if needed. The Town reserves the right to accept or reject all pricing if it appears excessive.

The allowances are as follows:

1. Pump Replacement or repair including bearings
2. Column replacement or repair whether 6" or 8
3. Electric motor work, bearings, windings

The total dollar price for well # 10.....\$ 15,000.00

History

The well has been conventionally treated with acid and chlorine about every two years. Metaphosphate has been used in the past but was eliminated during the treatment in 2010/2011. This chemical serves as a source of food for the rapid re-growth of bio-fouling bacteria plugging the screen and adjacent formation and we now specify a phosphate alternative to be used.

The well was aquafreezed in 2017 with results similar to conventional cleaning and we are selecting a standard conventional cleaning process for this cleaning cycle.

Well Cleaning Protocol

The well cleaning will be as follows:

- 1) The well will be first rated prior to cleaning and can be done using the existing submersible pump or external rating pump.
- 2) The submersible pump is to be removed for complete inspection and cleaning.
- 3) The inhibited muriatic acid will be added first. The volume is to be cleared with the facility manager.

*Well Cleaning 10&11 21S-451-0041
January 26, 2021 10:00 AM*

- 4) The phosphate addition will be added second after the acid has been pumped and neutralized from the well.
- 5) The final step will be addition of liquid chlorine, the volume to be cleared by the facility manager.
- 6) The traditional machine hours for the wells will be 30 hours each. The pricing will be based on these total machine hours. If there appears to be more or less hours, the contractor needs to consult with the facility manager.

Well Cleaning Well #11

The Town of Burlington DPW is seeking pricing for the cleaning & rehabilitation of Well # 11 at 132 Lexington St., Burlington, MA. The well is a gravel packed well and measures 60' x 12". The pump capacity is 300 GPM and a drawdown of 10-15 gallons per foot.

Allowance

The town of Burlington is making allowances for parts that cannot be inspected, until the pump is removed and the wells inspected.

The allowances are spelled out below and can be added to the overall costs in the well cleaning portion of the contract.

The pricing is general allowing the Town to set aside monies for this work if needed. The Town reserves the right to accept or reject all pricing if it appears excessive.

The allowances are as follows:

1. Pump Replacement or repair including bearings
2. Column replacement or repair whether 4" or 6" or 8"
3. Electric motor work, bearings, windings

The total dollar price for well # 11.....\$ 15,000.00

History

The well has been conventionally treated with acid and chlorine about every two years. Metaphosphate has been used in the past but was eliminated during the treatment in 2010/2011. This chemical serves as a source of food for the rapid re-growth of bio-fouling bacteria plugging the screen and adjacent formation and we now specify a phosphate alternative to be used.

The well was aquafreezed in 2017 with results similar to conventional cleaning and we are selecting a standard conventional cleaning process for this cleaning cycle.

Well Cleaning Protocol

The well cleaning will be as follows:

- 1) The well will be first rated prior to cleaning and can be done using the existing submersible pump or external rating pump.
- 2) The submersible pump is to be removed for complete inspection and cleaning.
- 3) The inhibited muriatic acid will be added first. The volume is to be cleared with the facility manager.
- 4) The phosphate addition will be added second after the acid has been pumped and neutralized from the well.
- 5) The final step will be addition of liquid chlorine, the volume to be cleared by the facility manager.
- 6) The traditional machine hours for the wells will be 30 hours each. The pricing will be based on these total machine hours. If there appears to be more or less hours, the contractor needs to consult with the facility manager.

SPECIAL CONDITIONS

1.1 Location and Work to be Done

The work herein specified to be done under this section shall consist of furnishing all equipment, labor, and materials to rate, chemically treat, clean, redevelop and re-rate the Wells in accordance with the specifications which follow.

The site of the work shall be at the existing Well #10 & Well #11 located at 132 Lexington St..

The exact location of the well(s) and the sequence of the work will be determined in the field by the Owner. The extent of the work will not necessarily be limited to any location, and the Owner reserves the right to order work to be done by the contractor in the other locations selected by the owner.

Any of the work under consideration may be omitted at the option of the owner.

2.1 Intent of Specifications

Under this specification, it is intended that the Contractor shall furnish all necessary equipment, labor and supplies to redevelop and repair the Well #10 & Well #11 and all associated pumping equipment. All information, which the bidder may require, may be secured by means of a personal visit to the site of the work.

2.2 Performance Test Prior to Cleaning

Each well will be test pumped for at least one hour prior to the chemical injection. Careful notation shall be made of the drawdown in both the pumping well and the existing observation wells so that a proper specific capacity, cone of depression and pump performance can be determined prior to the redevelopment. Voltage and amperage readings along with meter tests of the motor shall be taken. Voltage and amperage measurements shall be taken and recorded, together with pump discharge pressure, static and pumping water levels and capacities at three operating points of the pump.

2.3 Equipment

The Contractor must furnish, deliver and erect at the site all necessary rigging and miscellaneous equipment to accomplish the repairs. This must include a cable tool-drilling machine capable of bailing the well that is satisfactory to the Owner. The equipment must have a walking beam which provides a reciprocating surging action in the well automatically for surging. No other form of surging will be allowed. Such surging action must have a stroke length of the three feet and frequency of up to 35 strokes per minute. Methods requiring operator attention for each stroke will not be permitted. The surge line must deliver a flow at least 10% more than the existing equipment 1000 GPM for Well #10 and 350 GPM for Well #11.

The surge line must consist of a vertical turbine pump capable of pumping at least

1000 GPM for Well # 10 and 350 GPM for Well #11 with a pumping level of 35 feet below station floor. Air lift pumping will not be allowed. It shall be set with multiple surge blocks at five foot intervals through the entire screen section with a surge block at two feet above the screen in the pipe section of the well. The surge then shall be installed to operate smoothly in the vertical motion and there is to be no strain or tension to the well during any part of the surging operation.

2.4 Cleaning and Redevelopment

The contractor having evaluated the problem will submit a methodology developed specifically to treat bio-fouling of Well #10 and Well #11

An NFS approved chemical treatment method shall include but not limited to high pressure injection mix, surging, jetting, temperature enhanced mix of acids, dispersants, polymers and PA adjustments to accomplish specific results outlined in the schedule. The formulated mix shall be injected in two applications over a six period with 24 hour contact time following each application. Jetting shall be performed with four nozzles suspended on a jetting/evacuation line. Jetting shall be capable of pressures in excess of 200 psi. Nozzles are to be directed to the screen from a distance not to exceed 1/2 inch allowing penetration of the pack. The evacuator shall have the ability to remove product and additional well water at a rate of 50% greater than injected flow. The jetting/evacuator line shall be rotated continuously while being raised and lowered starting at the bottom and working to the top of the screen, then reversed and continue to the bottom. This shall be done for three passes with three volumes of mixture injected.

Shock One shock blend of acids developed specifically for this well produces bacterial and metal chelating properties.

Dispense Polymers will provide ability to penetrate into the bio-fouling masses allowing the bacterial to work and break down the biomass.

Care must be taken to follow all federal, state and local regulations pertaining to the handling of chemicals.

All water pumped to waste shall be neutralized by the Contractor.

The surge equipment is to be installed and the well shall be surged and redeveloped to remove all matter loosened on the treatment process. The redevelopment continues at the highest specific capacity at the highest rate.

2.5 Performance Test after Cleaning

Following the installation of the pump in the well, the Contractor shall conduct a one-hour pumping test of the well and its equipment, comparing the results of this test with the initial test. Voltage and amperage measurements shall be taken and recorded, together with pump discharge pressure, static and pumping water levels and capacities at three points of the pump.

2.6 Report

Following completion of all work, a report detailing the work done, repair parts, redevelopment procedures followed and the results of the redevelopment shall be made and submitted to the Owner as part of the invoice for the work. The details of the work shall show the amount of hours expended on each item and shall be listed chronologically.

2.7 Salvage

All pump parts and equipment removed from the existing work and not required to be installed in the new work, shall be disposed of at the direction of the Owner.

2.8 Provisions for Control of Erosion

Sufficient precautions shall be taken during the work to minimize the runoff of polluting substances such as silt, clay, fuels, oils, bitumen, calcium chloride, or other polluting materials harmful to hum and, fish, or other life, into the surface water of the State. Control measures must be adequate to assure that turbidity in the receiving water will not be increased more than 10s.t.u, other as otherwise required by the State or other controlling body, in waters used for public water supply or fish unless limits have been established for particular water. In surface water used for other purposes, the turbidity must not exceed 25 s.t.u. unless otherwise permitted. Special precautions shall be taken to prevent operations, which promote erosion.

Any of the work under consideration may be omitted at the discretion of the owner.

3.1 Access to the Well Cleaning Area

The owner shall provide and maintain adequate access for truck-mounted equipment and prior to the Contractor moving his equipment; it will be his responsibility to notify the Owner in sufficient time so that the Owner or his representative may obtain necessary permission and arrange for any site work necessary. This includes overhead clearance to any structures.

3.2 Inspection and Rejection of Materials

All materials furnished and all work performed by the Contractor shall be subject to inspection and approval of the owner. All defective materials shall be removed immediately from the site of the work.

3.3 Occupying Private Land

The contractor shall not, except after written consent from the proper parties, enter or occupy with men, tools, materials or equipment, any land outside of the rights-of-way or property of the Owner.

3.4 Sanitation

The Contractor shall prohibit the committing of nuisances on the site or upon adjacent property, whether public or private.

3.5 Definitions

Wherever the words defined in this section or pronouns used in their stead occur in the specifications, they shall have meanings herein given.

As directed, as required, etc.

Wherever in the specifications, the words “as directed”, “as required”, “as permitted”, or words like import are used, it shall be understood the direction, requirement, or permission of the Owner is intended. Similarly, the words “approved”, “acceptable”, “satisfactory”, and words of like import shall mean approved by, acceptable to, or satisfactory to the Owner.

GENERAL CONDITIONS

ARTICLE 1

CONTRACT DOCUMENTS

1.1 DEFINITIONS

1.1.1 THE CONTRACT DOCUMENTS

The Contract Documents consist of the Owner-Contractor Agreement, the Conditions of the Contract (General, and other Conditions), the Drawings, the Specifications, all Addenda issued prior to and all Change Orders issued after execution of the Contract, and all applicable laws, ordinances and regulations. The Contract Documents include Bidding Documents such as the Advertisement or Invitation to Bid, the Instructions to Bidders, sample forms, the Contractor's Bid or portions of Addenda relating to any of these, or any other documents, specifically enumerated in the Owner-Contractor Agreement.

1.1.2 THE CONTRACT

The Contract Documents form the Contract for Construction. This Contract represents the entire and integrated agreement between the parties hereto and supersedes all prior negotiations, representations, or agreements, either written or oral. The Contract may be amended or modified only by a written Change Order.

1.1.3 THE WORK

The Work comprises the completed construction required by the Contract Documents and includes all labor necessary to produce such construction, and all materials and equipment incorporated in such construction.

1.1.4 THE PROJECT

The project is the total construction of which the Work performed under the Contract Documents may be the whole or a part.

1.1.5 OR EQUAL

The use of the words "Or Equal" following the name of any manufacturer, vendor or proprietary product shall be understood to mean that articles or materials may be substituted which, in the opinion of the Owner, are equal in quality, durability, appearance, strength, design and performance to the articles or materials named or described and will perform adequately in providing a first-class facility.

When submitting shop drawing information on articles or materials which are being proposed as substitutes for specified items, the Contractor shall clearly identify them as such. If the articles or materials are accepted as equal to those on which dimensions on the drawings are based, any 2-dimensional variance from those shown and/or specified shall be shown on the shop drawings prepared by the Contractor, illustrating the manner in which conformity to dimensions and design is to be obtained. All such drawings shall be subject to the approval of the Owner and the installation of the article shall not proceed without first obtaining said approval.

1.2 EXECUTION, CORRELATION AND INTENT

1.2.1

By executing the Contract, the Contractor represents that he has visited the site, familiarized himself with the local conditions under which the Work is to be performed, and correlated his observations with the requirements of the Contract Documents.

1.2.2

The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work. The Contract Documents are complementary, and what is required by any one shall be as binding as if required by all. Work not covered in the Contract Documents will not be required unless it is consistent therewith and is reasonably inferable therefrom as being necessary to produce the intended results. Words and abbreviations which have well-known technical or trade meanings are used in the Contract Documents in accordance with such recognized meanings.

1.2.3

The Notice to Proceed will come in the form of a written letter to the Contractor. Once the written Notice to Proceed has been received by the Contractor, that date will be the legal start date for work under the Contract.

In the event of a failure to issue a Notice to Proceed written document specifying the commencement date, the pre-construction meeting date will serve as the Notice to Proceed date.

1.3 OWNERSHIP AND USE OF DOCUMENTS

1.3.1

All Drawings, Specifications and copies thereof furnished by the Owner are and shall remain the Owner's property. They are to be used only with respect to this Project and are not to be used on any other project without prior written consent of the Owner. With the exception of one contract set for each party to the Contract, such documents are to be returned or suitably accounted for to the Owner at the completion of the Work. Submission or distribution to meet official regulatory requirements or for other purposes in connection with the Project is not to be construed as publication in derogation of any reserved rights.

ARTICLE 2

ADMINISTRATION

2.1 ADMINISTRATION OF THE CONTRACT

2.1.1

The designated representative of the Owner or its Engineer will visit the site at intervals appropriate to the stage of construction to familiarize himself generally with the progress and quality of the Work and to determine in general if the Work is proceeding in accordance with the Contract Documents. However, the Owner's Representative or Engineer will not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work.

*Well Cleaning 10&11 21S-451-0041
January 26, 2021 10:00 AM*

2.1.2

The Owner shall at all times have access to the Work whenever it is in preparation and progress. The Contractor shall provide facilities for such access so the Owner may perform its functions under the Contract Documents.

2.1.3

The Owner shall make payments for completed work, as approved by the Owner, in accordance with M.G.L. Ch. 30, Sec. 39G. A five percent retainage will be deducted from periodic payments to the Contractor.

2.1.4

The Owner will render information necessary for the proper execution or progress of the Work within twenty (20) days of any request by the contractor or in accordance with any time limit agreed upon.

2.1.5

The Owner will have authority to reject Work which does not conform to the Contract Documents. Whenever, in his opinion, he considers it necessary or advisable for the implementation of the intent of the Contract Documents, he will have authority to require special inspection or testing of the Work whether or not such Work is then fabricated, installed or completed. Any such rejection of work shall not relieve the Contractor of the responsibility for maintaining protection of the Work and the Owner's property.

2.1.6

The Owner or its Engineer will review and approve or take other appropriate action upon Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for conformance with the design concept of the Work and with the information given in the Contract Documents. Such action shall be taken with reasonable promptness so as to cause no delay. The Owner's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

2.1.7

The Owner will conduct inspections to determine the date of Substantial Completion and Final Completion, will review written warranties and related documents required by the Contract and assembled by the Contractor, and will issue a final Certificate for Payment.

ARTICLE 3

OWNER

3.1 DEFINITION

3.1.1

The Owner is the person or entity identified as such in the Owner-Contractor Agreement and is referred to throughout the Contract Documents as if singular in number and masculine in gender. The term Owner means the Town of Burlington or its designated representative.

3.2 INFORMATION AND SERVICES REQUIRED OF THE OWNER

3.2.1

The Owner shall, at the time of execution of the Agreement and any subsequent Change Orders, certify for the Contractor that financial arrangements have been made to fulfill the Owner's obligations under the Contract.

3.2.2

The Owner shall furnish all documents describing the work.

3.2.3

Except as provided in Subparagraph 4.7.1. Owner shall secure and pay for necessary approvals, easements, assessments and charges required for the construction, use or occupancy of permanent structures or for permanent changes in existing facilities.

3.2.4

Information or services under the Owner's control shall be furnished by the Owner with reasonable promptness to avoid delay in the orderly progress of the Work.

3.2.5

The Owner will furnish the Contractor with three (3) copies of all Drawings and Specifications and revisions issued during the progress of the Work; all additional copies will be furnished upon request at the cost of reproduction.

3.2.6

The Owner, through its designated agent or Engineer, shall forward all instructions directly to the Contractor.

3.3 OWNER'S RIGHT TO STOP THE WORK

3.3.1

If the Contractor fails to correct defective Work as required by the Owner or fails to carry out the Work in accordance with the Contract Documents or if the Owner shall for any other reason so require, the Owner, by a written order signed personally or by an agent specifically so empowered by the Owner in writing, may order the Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated or until further written notice from the

*Well Cleaning 10&11 21S-451-0041
January 26, 2021 10:00 AM*

Owner; however, this right of the Owner to stop the Work shall not give rise to any duty on the part of the Owner to exercise this right for the benefit of the Contractor or any other person or entity. The Contractor shall resume the Work after such stoppage promptly upon written notice to do so from the Owner. If such stoppage is required through no fault of the Contractor, the Contract Time (and the dates for achieving Substantial Completion and Final Completion) shall be extended by a period equal to the period of the stoppage, and the Contractor shall be compensated for its reasonable and justifiable cost incurred as a result of such stoppage.

3.4 OWNER'S RIGHT TO CARRY OUT THE WORK

3.4.1

If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents and fails within seven days after receipt of written notice from the Owner to commence and continue correction of such default or neglect with diligence and promptness, the Owner may, without prejudice to any other remedy he may have, perform such work or cause such work to be performed and/or make good such deficiencies. In such case an appropriate Change Order shall be issued deducting from the payments then or thereafter due the Contractor the cost of correcting such deficiencies, including compensation for additional services made necessary by such default, neglect or failure. If the payments then or thereafter due the Contractor are not sufficient to cover the amount, the Contractor shall pay the difference to the Owner.

3.5 OWNER'S RIGHT TO TERMINATE CONTRACT

3.5.1

The Town reserves the right to terminate this Contract at their discretion with thirty (30) days written notice to the contractor. In the event of Contract termination, all finished or unfinished work, or un-used material, already paid for under Contract prices, shall become the property of the Town of Burlington.

ARTICLE 4

CONTRACTOR

4.1 DEFINITION

4.1.1

The Contractor is the person or entity identified as such in the Owner-Contractor Agreement and is referred to throughout the Contract Documents as if singular in number and masculine in gender. The term Contractor means the Contractor or his authorized representative.

4.2 REVIEW OF CONTRACT DOCUMENTS

4.2.1

The Contractor shall carefully study and compare the Contract Documents and shall at once report to the Owner any error, inconsistency or omission he may discover. The Contractor shall not be liable to the Owner for any damage resulting from errors, inconsistencies or omissions in

the Contract Documents which he discovers but shall be liable for damage to the extent he reasonably should have but failed to discover such errors, inconsistencies or omissions. The Contractor shall perform no portion of the Work at any time without Contract Documents or, where required, approved Shop Drawings, Product Data or Samples for such portion of the Work.

4.3 SUPERVISION AND CONSTRUCTION PROCEDURES

4.3.1

The Contractor shall supervise and direct the Work, using his best skill and attention which shall not be less than such state of skill and attention generally rendered by the contracting profession for projects similar to the Project in scope, difficulty and location. The Contractor shall maintain adequate supervisory personnel at the Site during the performance of the Work. He shall be solely responsible for all construction means, methods, techniques, sequences and procedures and for coordinating all portions of the Work under the Contract.

4.3.2

The Contractor shall be responsible to the Owner for the acts and omissions of his employees, Subcontractors and their agents and employees, and other persons performing any of the Work under a contract with the Contractor. This obligation shall also extend to the presence on the Site of suppliers of materials or equipment, their employees, contractors, and agents engaged in the work.

4.3.3

The Contractor shall not be relieved from his obligations to perform the Work in accordance with the Contract Documents either by the activities or duties of the Owner in its administration of the Contract.

4.4 LABOR AND MATERIALS

4.4.1

Unless otherwise provided in the Contract Documents, the Contractor shall provide and pay for all labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and service necessary for the proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work.

4.4.2

The Contractor shall at all times enforce strict discipline and good order among his employees and shall not employ on the Work any unfit person or anyone not skilled in the task assigned to him including all persons on the Site controlled directly or indirectly by the Contractor.

4.5 WARRANTY

4.5.1

The Contractor warrants to the Owner that all materials and equipment furnished under this Contract will be new and of recent manufacture unless otherwise permitted in writing by the

*Well Cleaning 10&11 21S-451-0041
January 26, 2021 10:00 AM*

Owner and that all Work will be of good quality, free from faults and defects and in conformance with the Contract Documents. All Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective and, promptly after written notification of non-conformance, shall be repaired or replaced by the Contractor with Work conforming to such requirements. If required by the Owner, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment.

4.6 TAXES

4.6.1

The Contractor shall pay all applicable sales, consumer, use and other similar taxes for the Work or portion thereof provided by the Contractor which are legally enacted at the time bids are received, whether or not yet effective.

4.7 PERMITS, FEES AND NOTICES

4.7.1

Unless otherwise expressly provided in the SPECIAL CONDITIONS, the Contractor shall secure and pay for all permits and fees, licenses and inspections necessary for the proper execution and completion of the Work which are customarily secured after execution of the Contract and which are legally required at the time the bids are received, and the same shall at all times be the property of the Owner and shall be delivered to the Owner upon completion of the Project.

4.7.2

The Contractor shall give all notices and comply with all federal, state and local laws, ordinances, rules, regulations and lawful orders of any public authority bearing on the performance of the Work. The Contractor shall provide the Owner with reproductions of all permits, licenses and receipts for any fees paid. The Owner represents that it has disclosed to the Contractor all orders and requirements known to the Owner of any public authority particular to this Contract.

4.7.3

If the Contractor observes that any of the Contract Documents are at variance with applicable laws, statutes, codes and regulations in any respect, he shall promptly notify the Owner in writing, and any necessary changes shall be accomplished by appropriate Modification.

4.7.4

If the Contractor performs any Work which he knows or should know is contrary to such laws, ordinances, rules and regulations, and without such notice to the Owner, he shall assume full responsibility therefore and shall bear all costs attributable thereto.

4.8 SUPERINTENDENT

4.8.1

The Contractor shall employ a competent superintendent and necessary assistants who shall be in attendance at the Project site at all times during the progress of the Work. The superintendent

*Well Cleaning 10&11 21S-451-0041
January 26, 2021 10:00 AM*

shall represent the Contractor and all communications given to the superintendent shall be as binding as if given to the Contractor. Important communications shall be confirmed in writing. Other communications shall be so confirmed on written request in each case.

4.9 PROGRESS SCHEDULE

4.9.1

The Contractor, immediately after being awarded the Contract, shall prepare and submit for the Owner's information an estimated progress schedule for the Work. The progress schedule shall be related to the entire Project to the extent required by the Contract Documents, and shall provide for expeditious and practicable execution of the Work.

No work shall start without the Project schedule. The Contractor shall submit the project schedule five days prior to start the work.

4.10 DOCUMENTS AND SAMPLES AT THE SITE

4.10.1

The Contractor shall maintain at the site for the Owner one record copy of all Drawings, Specifications, Addenda, Change Orders and other Modifications, and "As-Built"

Drawings and Specifications in good order and marked currently to record all changes made during construction, and approved Shop Drawings, Product Data and Samples. These shall be available to the Owner upon completion of the Work.

4.11 SHOP DRAWINGS, PRODUCT DATA AND SAMPLES

4.11.1

Shop Drawings are drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or any Subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

4.11.2

Product Data are illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate a material, product or system for some portion of the Work.

4.11.3

Samples are physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

4.11.4

The Contractor shall review, approve and submit, with reasonable promptness and in such sequence as to cause no delay in the Work or in the work of the Owner or any separate contractor, all Shop Drawings, Product Data and Samples required by the Contract Documents.

4.11.5

By approving and submitting Shop Drawings, Product Data and Samples, the Contractor represents that he has determined and verified all material, field measurements, and field construction criteria related thereto, or will do so, and that he has checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

4.11.6

The Contractor shall not be relieved of responsibility for any deviation from the requirements or the Contract Documents by the Owner's approval of Shop Drawings, Product Data or Samples or the Engineer's approval of the same unless the Contractor has specifically informed the Owner or Engineer in writing of such deviation at the time of submission and the Owner or Engineer has given written approval to the specific deviation. The Contractor shall not be relieved from responsibility from errors or omissions in the Shop Drawings, Product Data or Samples by the Owner's approval thereof.

4.11.7

The Contractor shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data or Samples, to revisions other than those requested by the Owner or its Engineer on previous submittals.

4.11.8

No portion of the Work requiring submission of a Shop Drawing, Product Data or Sample shall be commenced until the submittal has been approved by the Owner or Engineer. All such portions of the Work shall be in accordance with approved submittals.

4.12 USE OF SITE

4.12.1

The Contractor shall confine operations at the site to areas permitted by law, ordinances, permits and the Contract Documents and shall not unreasonably encumber the site with any materials or equipment.

4.13 CUTTING AND PATCHING OF WORK

4.13.1

The Contractor shall be responsible for all cutting, fitting or patching that may be required to complete the Work or to make its several parts fit together properly.

4.13.2

The Contractor shall not damage or endanger any portion of the Work or the work of the Owner or any separate contractors by cutting, patching or otherwise altering any work or by excavation. The Contractor shall not cut or otherwise alter the work of the Owner or any separate contractor except with the written consent of the Owner and of such separate contractor. The Contractor shall not unreasonably withhold from the Owner or any separate contractor his consent to cutting or otherwise altering the Work.

4.14 CLEANING UP

4.14.1

The Contractor at all times shall keep the premises free from accumulation of waste materials or rubbish caused by his operations. At the completion of the Work he shall remove all his waste materials and rubbish from and about the Project in full compliance with all applicable laws and regulations as well as all his tools, construction equipment, machinery and surplus materials and the Project shall be thoroughly cleaned and ready for immediate occupancy by the Owner.

4.14.2

If the Contractor fails to clean up at the completion of the Work, the Owner may do so as provided in Paragraph 3.4 and the cost thereof shall be charged to the Contractor.

4.15 COMMUNICATIONS

4.15.1

The Contractor shall forward all communications to the Owner's designated representative.

4.16.2

The Contractor shall at all times have a designated representative in the field that is authorized to act on behalf and make decisions for the Contractor under this contract agreement.

4.16 ROYALTIES AND PATENTS

4.16.1

The Contractor shall pay all royalties and license fees. He shall defend all suits or claims for infringement of any patent rights and shall save the Owner harmless from loss on account thereof, except that the Owner shall be responsible for all such loss when a particular design, process or the product of a particular manufacturer or manufacturers is specified, but if the Contractor believes or has reason to believe that the design, process or product specified is an infringement of a patent, he shall be responsible for such loss unless he promptly gives such information to the Owner, and thereafter the Owner insists on the use of the design, process or products specified.

4.17 INDEMNIFICATION

4.17.1

To the fullest extent permitted by law, the Contractor shall indemnify and hold harmless the Owner, the Engineer and their agents and employees from and against all claims, damages, losses and expenses, including but not limited to attorney's fees, arising out of or resulting from the performance of the Work, provided that any such claim, damage, loss or expense (1) is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself) including the loss of use resulting there from, and (2) is caused in whole or in part by any negligent act or omission of the Contractor, any Subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, regardless of whether or not it is caused in part by a party indemnified there under. Such obligation shall not be construed to negate, abridge, or

*Well Cleaning 10&11 21S-451-0041
January 26, 2021 10:00 AM*

otherwise reduce any other right or of indemnity which would otherwise exist as to any party or person described in this Paragraph 4.17.

4.17.2

In any and all claims against the Owner the Engineer or any of their agents or employees by any employee of the Contractor, any Subcontractor anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligation under this Paragraph 4.17 shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the Contractor or any Subcontractor under workers' or workmen's compensation acts, disability benefit acts or other employee benefit acts.

4.17.3

The obligations of the Contractor under this paragraph 4.17 shall not extend to the liability of the Owner, the Engineer, their agents or employees, arising out of (1) the preparation or approval of maps, drawings, opinions, reports, surveys, change orders, designs or specifications, or (2) written directions or instructions given by the Owner, the Engineer, their agents or employees, provided they are the sole cause of the injury or damage.

ARTICLE 5

INSURANCE

Contractor shall provide insurance as specified below:

GENERAL LIABILITY

Includes:

- Comprehensive form
- Premises/Operations
- Underground Explosion & Collapse Hazard
- Products / Completed Operations
- Independent Contractors
- Broad From Property Damage
- Personal Injury

Each Occurrence	\$1,000,000
Aggregate	\$2,000,000

Automobile Liability

Includes:

- All Owned Vehicles
- Hired Vehicles
- Non-owned Vehicles

Bodily Injury & Property Damage Combined	\$1,000,000
--	-------------

- As Required by State of Massachusetts

Each Accident	\$100,000
Bodily Injury by Disease (Policy Limit)	\$500,000
Bodily Injury by Disease (Each Employee)	\$100,000

Additional Insurance / Requirements

- The Town of Burlington Shall be named as Additional Insured

ARTICLE 6

LIQUIDATED DAMAGES

6.1 LIQUIDATED DAMAGES

If the Contractor shall neglect, fail or refuse to complete the work within the time herein specified, or any proper extension thereof granted by the Owner, then the Contractor does hereby agree, as a part consideration for the awarding of this Contract, to pay to Owner the amount of \$1000 per day, not as a penalty but as liquidated damages for such breach of Contract as hereinafter set forth, for each and every calendar day that the Contract shall be in default after the time stipulated in the Contract for completing the work.

APPENDIX A – Prevailing Wage
